

ITS PRO - 4 modular screen

Immersive training System

Immersive

Modular

Immersive modular screen

Modular PVC canvas screen, native consisting of 3 or 4 facades.
Unlimited number of add-on panels.

Immersiveness

Wide-ranging immersion for large groups of spectators. Enhances the appeal of presentations by being able to create dynamic content with high emotional impact.

Modularity

The screen is made of aluminum frame and screen for video projection with Diamond screen surface. The single module is then equipped with wall brackets, wall arm or stand according to the spatial location of the installation.
