

BIG LODO EVO AND BIG LODO EVO TENSIONATO

Base from 700cm up to 850cm

Lodo Evo – Professional Projection Screen for Large Venues

Big Lodo Evo is the ideal solution for large-scale environments such as conference halls, auditoriums, and theatres, where projection quality must remain impeccable even on a grand scale.

Designed to deliver outstanding performance on large formats and ensure long-lasting durability, Lodo Evo combines advanced technology, reliability, and elegant design in a single professional product crafted for high-end installations.

Latest-Generation EVO Motor:

- Extremely quiet (only 43 dB)
- Automatic counterweight stop during closure
- Fully enclosed case for an elegant finish and complete protection of internal components

Available in matte white or matte black
