

MOT

Base from 240 cm to 430 cm

MOT is a motorized screen designed for meeting rooms, offices, and medium-to-large educational environments. Engineered for intensive and reliable use, it combines functionality with an essential design. The matte white casing, featuring a sober and linear profile, integrates discreetly into any architectural space, ensuring an elegant and non-invasive presence. Compact, practical, and always professional, MOT is the ideal choice for those seeking a high-performance screen without sacrificing aesthetics.
